

SANIDHYA MALHOTRA

(562) 336-3246 | sanidhyamalhotra01@gmail.com | [LinkedIn](#) | [sanidhyamalhotra](#)

Cybersecurity professional with experience in security monitoring, incident response, threat analysis, and cybersecurity communications. Skilled at translating technical security findings into clear, actionable information for technical and non-technical audiences. Experienced security awareness initiatives, incident reporting, stakeholder communication, and developing security-focused content that supports risk reduction and security best practices.

EDUCATION

California State University, Dominguez Hills

Master of Science, Cybersecurity

Relevant Coursework: Information Security, Cyber Forensic, CyberOps & Cloud DevSecOps, Network Security

Carson, CA

Expected: May 2026

IK Gujral Punjab Technical University

Bachelor of Technology, Computer Science & Engineering

Relevant Coursework: Computer Networking, Data Structures, Discrete Structures, Simulation and Modeling, AI, OOPS

Mohali, India

Graduated: Jun 2021

PROJECTS

Secure & Scalable Banking System on AWS | California State University, Dominguez Hills

Apr 2025 – May 2025

- Built a serverless cloud-native banking backend using AWS Lambda, API Gateway, DynamoDB, RDS, and S3.
- Implemented Cognito authentication with MFA and secured all data using KMS encryption at rest and TLS in transit.
- Documented security requirements and communicated cloud security controls and risk mitigation strategies for technical and non-technical stakeholders.
- Developed security documentation and reporting artifacts supporting audit readiness, compliance, and awareness of security controls.

SonarQube & Jenkins CI/CD Integration | California State University, Dominguez Hills

Jan 2025 - Feb 2025

- Developed secure CI/CD processes and documented security findings, remediation activities, and compliance-related findings.
- Tracked vulnerabilities and coordinated remediation activities through Jira while supporting security reporting and stakeholder communication.
- Assisted in documenting security issues, escalation activities, and resolution status for technical teams.

Network Intrusion Analysis – PCAP File Investigation | California State University, Dominguez Hills

Aug 2024 - Oct 2024

- Investigated simulated security incidents and translated technical findings into structured reports and security communications.
- Analyzed indicators of compromise and threat activity using Splunk, Security Onion, and Wireshark.
- Produced security reports and incident summaries to support awareness, remediation, and risk reduction efforts.

WORK EXPERIENCE

Tata Consultancy Services

System Engineer

Noida, India

Aug 2021 - Aug 2024

Project: MePC A.P. Moller – Logistics and Supply Chain Management Application

- Built and secured REST APIs with JWT authentication; implemented OWASP-aligned protections across UI and backend layers.
- Developed dynamic, secure web interfaces using JavaScript and Backbone.js, with XSS/CSRF/SQLi mitigation techniques.
- Automated secure deployments via Postman, GitHub Actions, and Jenkins pipelines, reducing manual effort by 30%.
- Documented security findings, tracked remediation activities, and communicated issue status to technical and business stakeholders.
- Prepared security documentation, supported compliance activities, and assisted with communicating security recommendations across project teams.

Oil and Natural Gas Corporation (ONGC)

Networking Engineering Intern

New Delhi, India

Jun 2021 - Jul 2021

- Designed segmented network topologies using Cisco Packet Tracer with secure routing protocols.
- Implemented basic firewalls and encryption to protect internal communications.
- Documented system risks and configurations for internal IT compliance reports.
- Gained hands-on experience with routers, switches, and VoIP configuration.

SKILLS & CERTIFICATION

Certifications - CompTIA Security+ | ISC2 Certified in Cybersecurity (CC)

Security Tools - Security Awareness, Cybersecurity Communications, Security Education, Security Culture, Stakeholder Engagement, Technical Writing, Security Documentation, Awareness Content Development, Security Reporting, Training Delivery, Workshop Facilitation, Executive Reporting

Security Operations & Threat Analysis – Splunk (SIEM), Security Onion, Wireshark, Threat Detection, Threat Analysis, Threat Intelligence, Incident Response, Incident Triage & Escalation, IOC Analysis, Log Analysis, MITRE ATT&CK, Security Monitoring

Risk Management – ISO 27001, SOC 2, Risk Assessments, Security Policies, Compliance Reporting, Third-Party Risk, Risk Communication, Security Control Documentation, Jira

Cloud Security – AWS (EC2, IAM, S3, KMS, Lambda, Cognito, DynamoDB, CloudTrail, CloudWatch), MFA, RBAC, Access Control Models, Identity & Access Management, Encryption Standards

Programing & Tools –Python, Java, JavaScript, SQL, REST APIs, Git, GitHub Actions, SonarQube
